DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/29/2004 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 29 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Fiske et al. Fiske discloses a sheet-wise binding system that includes a sheet transport path for transporting a plurality of printed sheets in a sheet-wise manner (generally at 50); a trimmer (40) configured to trim the edges of the sheets traveling through the sheet transport path to form a saw tooth edge feature that includes a plurality of document portions (see Figure 3); a stacking system (58) for stacking the trimmed sheets; a binding system (64) for binding the stacked sheets to form a finished document having the saw tooth edge feature (after binding, the document is a “finished document” and ready for further processing); and a controller (42) programmed to control the sheet transport path and the trimmer to trim the entire edges of the sheets at a varying depth according to a trim schedule to create the saw tooth edge feature;

Allowable Subject Matter

4. Claims 2-6, 8-18, 20-21, 24-25, 28, 30-31, 33, 37, and 38 are allowed.

Response to Arguments

5. Applicant's arguments filed 11/29/04 have been fully considered but they are not persuasive. The applicant states that Fiske does not disclose forming the saw tooth edge feature. In response, the examiner notes that the claims read on the saw tooth feature illustrated by Fiske in Figure 3. Moreover, this is a "finished document"—it is a document to which at least one finishing process has been applied.
